PERSONAL DETAILS

- Current Location Pune
- Date of Birth November 15, 1998
- Gender Male

SKILLS

- React.js
- Javascript
- Java
- HTML
- CSS
- MySQL

LANGUAGES KNOWN

- Marathi (Both)
- English (Both)
- Hindi (Both)

CERTIFICATIONS

- CDAC - Advance Computing

EDUCATION

Post-Graduation

Course PG Diploma (Computers)
College Centre for Development of Advanced Computing (CDAC)

Graduation

Course B.Tech/B.E. (Mechanical)
College Sinhgad Institute of Technology and Science
Score 84%

Class XII

Board Name Diploma
Medium English
Year of Passing 2019
Percentage 68%

Class X

Board Name Maharashtra
Medium English
Year of Passing 2014
Percentage 80%

PROJECTS

Airline Reservation System , August 2023 - October 2023

- The web based Airline Reservation System project is an attempt to simulate the basic concepts of airline reservation system. The system is built using spring boot, React and MySQL. The system enables the user to perform tasks including looking up airline flights between two cities on a given date, selecting a ticket depending on the specifics, booking a flight, and cancelling a booking. After the search, the system displays a list of available flights and allows the customer to select a specific flight. After taking the flight and making a successful payment, the customer can print the ticket or send it to their registered email address.

Vibration Analysis Of Shaft And Impeller, November 2021 - March 2022

- Rotating parts in the machinery are more susceptible to damage due to vibrations which occur at critical speeds. So, vibrations are a major concern in designing of rotating components. It is important to carry out analysis of the shaft and impeller before manufacturing to understand vibrational characteristics to modify our design and preventing malfunctioning of the shaft and impeller
